WILL GIVE YELLOW JACK A HARD FIGHT

New Orleans Officials Working to Eradicate Disease.

THE SITUATION WELL IN HAND

Every Precaution is Taken to Prevent Spread of Yellow Fever—One Case Reported at Tampa, Fla.—Outside Offers of Aid Refused.

New Orleans, July 29.—Officials de-
clared reports of 26 new cases and
two new cases occurring in the preced-
ing 24 hours was made to the state
health board today making a total
of 206 cases and 44 deaths to date. Of
the 26 new cases all except one are
Italian. The exception of a negro
living in the infected district. None
of the new cases is above Canal street
and all of them with one exception at
223 St. Ann, in the rear of the city
in the district embraced between St.
Ann and Hospital and Burgundy and
the river, included in which is the orig-
inal infection. The majority of the
cases reported are from the French
market section.

Two deaths, Nunzio Brocato and
John Nallo, occurred in the vicinity
of the market.

The Louisiana state board is in ses-
sion today. It will quarantine the state
against New Orleans with the excep-
tion, perhaps of the parishes of St.
Tammany, Tangipahoe and Jefferson,
contiguous to the city, some of these
towns desire communication with New
Orleans.

The authorities who are handling
the fever situation here have so thor-
oughly perfected their organization
that they feel confident every case of
fever, even though not thoroughly de-
veloped, will be promptly reported, and
upon the official records. So thor-
ough has been the inspection of the
city that is believed every existing
case has been rooted out and is now
included in the 206 cases, which have
been announced. Many of these are
on the road to recovery, and it is ex-
pected the twelfth the perfect scientific
treatment that has been arranged for
here will be a reduction in the mortal-
ity rate which, in the early stages of
the disease has been admittedly high.

The most annoying feature of the
situation now is the disposition of
practically every town in this state
in the adjoining states to lighten
the quarantine against the city. This is
due to the feeling beyond the city that
100 cases means a serious situation
and the fact that the escape of Ital-
ians from the infected French mar-
ket or later has resulted in the appear-
ance of cases of fever at various
points.

One case has been reported at Tam-
pa of an Italian refuge from New Or-
leans and there are reports of cases in
LaFayette, Ascension, St. Mary and
Plaquemines parishes.

Shotgun guards are now being put
on public roads in parishes outside of
New Orleans to turn back every Ital-
ian who makes his appearance and the
bars have been put up all over the
state against that nationality in par-
ticular.

Two Italians who managed to board a
Mississippi Valley train yesterday,
were locked in a car which was slide-
tracked at Baton Rouge last night and
sent back to New Orleans today.

Here in the city and elsewhere the
Italians are suffering through a mark-
ed reduction in the fruit business in
which they are largely interested.

There is a popular misapprehension
that fruit from the tropics is capable
of transmitting the infection and some
of the towns are already including
fruit among their quarantined articles.
In New Orleans many people are re-
fusing to patronize the Italian peddlers
and fruit stands. Rev. Dr. Beverly
Warner, who recently returned here
from Philadelphia, today opened of-
fices in one of the prominent office
buildings. He has been chosen su-
perintendent of wards in the great cam-
paign of cleaning and jacking the
city. All roads will be carefully re-

terns is to be popularized in a novel
way. Thousands of lapel buttons have
been ordered to be given to those who
have followed this regulation of the
board of health. The buttons are
plain white with a life-size stegomyia
fascia pictured in the center and
surrounded with the words:
"My sisters are all right. How are
yours?"

Governor Blanchard has returned to
the state capital from Alexandria en-
campment and has placed himself into
hourly communication with the state
board of health. He is unable to
come here because Baton Rouge and
the other towns have made their quar-
antines so rigid that if he did he
would not be able to get away again
and the state's business would con-
sequently suffer. The governor said to-
day in an interview that he did not
believe there was the slightest justifi-
cation for a panicky feeling in the
state. He is in perfect touch with
the local situation, and he thinks that
if there is thorough co-operation of
the people with the medical authori-
ties there is no danger of a serious
spread of the fever in Louisiana, even
if additional isolated cases occur out-
side of New Orleans from the flight
of the Italian population.

The reported case at Bowie, on the
Southern Pacific in LaFourch parish,
has been confirmed. The case was
that of an Italian who fled from New
Orleans. Upon his death the authori-
ties promptly burned the building
which he had occupied.

The Italian societies have issued an
address to their countrymen. They
say:

"If any of your family should get
sick, don't hid that fact, but call at
once for relief, and it will be forth-
coming. It is of the utmost impor-
tance to know of the very first attack
of illness. If you are without means,
or if you are in any way pushed for
funds, come forward without hesitation
and notify us. You will get all the
assistance you need. You will be
given the services of a physicians and
you will be furnished with money,
medicines, food and whatever you may
actually want. We want to show the
people of this country that the Ital-
ian colony is progressive, intelligent,
law-abiding and self supporting and
that we have men able and willing to
meet emergencies of any kind."

Mayor Behrman has received a tele-
graphic offer of funds from President
Taylor, of the Howard association of
Charleston. He has replied, thanking
the people of Charleston for their offer,
but stating that the situation is
well in hand here and that no finan-
cial aid is needed from the outside. Other
tenders of help have been received.

There is no necessity for it. No
distress whatever exists except among
some of the poorer classes, and that is
being promptly relieved out of the
bountiful fund that has been subscrib-
ed by the business community and the
financial aid pledged by the city.

UNDERWRITERS IN SESSION.

Want to Establish Adjustment Bureau
to Handle Losses.

New York, July 29.—Establishment
of an adjustment bureau to more eco-
nomically handle losses in the east
was discussed here yesterday at a
largely attended meeting of men rep-
resenting fire insurance companies do-
ing business in the eastern field. A
plan was presented to the underwrit-
ers suggesting the formation of an
incorporated company to carry on the
business of adjusting losses.

Under this scheme it was proposed
to invite all the reputable fire insur-
ance companies operating in the eastern
states to become members by
taking stock in the name of the com-
pany and thus gaining representation.

The general outlines were thorough-
ly discussed and resolutions adopted
appointing a committee of seven, up-
on which the adjustment committee of
the national board shall be represent-
ed, an consider the question and draft
a form of agreement for the creation
of an adjustment bureau for submis-
sion to the companies.

Government Boat Sinks.

Columbus, Ga., July 29.—The gov-
ernment boat Chattahoochee sank at
Woolfolk's Bend, on the Chattahoochee
river Thursday, the result of striking
a snag. The water is not very deep
at that point and the boat can be

WIFE MURDERER IS GIVEN A REPRIEVE

New Lease On Life Is Granted Johann Hoch.

IS RESPITED UNTIL SEPTEMBER

All Was Ready for Execution When a Woman, Whose Name Is Withheld, Guaranteed the Money to Carry the Case to Supreme Court.

Chicago, July 29.—Hoch has been re-
rieved until the middle of September.
A woman with money effectually in-
tervened today between "Bluebeard"
Johann Hoch and the hangman. Almost
on the steps of the gallows the com-
bination of femininity and finance that
has been potent throughout the re-
markable career of the multi-bagmist
ad wife-murderer secured a respite of
two hours longer. After all arrange-
ments were completed and death faced
Hoch within two hours, a woman went
to the rescue. So earnest did she
appeal in an offer to furnish money

JOHANN HOCH.

necessary to allow Hoch to appeal his
case, that there was a hurried consul-
tation between officials. The upshot
was that the execution planned to take
place at noon was postponed until 2
p. m., the last minute allowed by law
unless the governor should grant a
further respite.

The woman is said to be wealthy
and professed to have become interest-
ed in the case from humanitarian mo-
tives only. She enlisted in her aid
Dr. Liston H. Montgomery, one of the
most prominent physicians in the city.
Dr. Montgomery acted as her interme-
diary in the negotiations. At 2 a. m.
Jailer Whitman was aroused from his
sleep to answer a telephone call.

Some person, who refused to give
his name at the time, announced that
he would appear at the jail at 10 a.
m., prepared to furnish money, the
lack of which it had been alleged pre-
vented Hoch from completing the re-
cords required by the Illinois supreme
court in case of an appeal. The re-
cords cost \$1,100. Hoch had \$100,
and a conditional promise of \$400 ad-
ditional. Because no name was given
on the telephone, Jailer Whitman
attached little importance to the noti-
fication.

Today at the hour named Dr. Mont-
gomery with Mrs. Wilson appeared at
the jail. Their talk with Whitman
convinced him they were in earnest
and steps were at once taken for a
new appeal to the governor.

Dr. Montgomery said:
"This lady, whose name is, far as I
am concerned, must ever remain a se-
cret, is actuated solely from humani-
tarian motives. It is the same cause
which determined me to assist her. I
became interested in the case from
the standpoint long ago. I went over
the testimony thoroughly. The de-
duction made by experts seemed ab-
surd."

After Dr. Montgomery and Mrs. Wil-
son left the jail State's Attorney Healy
talked over the telephone with Gov-
ernor Deneen, who is at Springfield,
and who was made acquainted with
the latest phase of the situation.

The governor told the state's attor-
ney to ascertain whether the offer was

sett to delay the execution until 1:50
o'clock p. m.

HAND BOOK RESORTS RAIDED.

Chicago Police Interrupt Poker Games and 84 Prisoners Taken.

Chicago, July 29.—Spectacular raid-
ing of hand book resorts in which 84
men were taken prisoners in four
hours' work marked John M. Collins',
second day's work as general superin-
tendent of the Chicago Police depart-
ment. Then at night came descents
on ten poker games.

Following out his startling action at
Wednesday evening, when he inter-
rupted several time-honored poker
games, the new chief yesterday re-
moved the assistant chief, Schuetzler
from the command of the raiding de-
tail and took personal charge himself,
announcing that he would hold his in-
spectors responsible for whatever gam-
bling was discovered in their dis-
tricts.

Armed with search warrants and
sledges, the "gambling detail" contin-
ued at night the destructive raids
which had terrorized the gambling frater-
nity during the preceding 24 hours.
A score of warrants, to which the
signatures of two police magistrates
were appended, were given to the raid-
ers, and descends on ten "clubs" were
made before midnight. The parapher-
nalia or that part of it left intact af-
ter the onslaught of the raiders, was
confiscated.

CANCELLED REVENUE STAMPS

Were Found on Big Shipment of "Stogies"—Arrests to Follow.

New York, July 29.—Arrests are an-
ticipated here within a short time as
the result of a seizure of cheap stogies
reported from St. Louis.

The consignment taken by govern-
ment agents numbered 48,000 and bore
internal revenue stamps which are al-
leged to have been used once and from
which the cancellation marks had been
washed with acid. An investigation has
been in progress several months
among the manufacturers in Hester
and Mulberry streets and Internal
Revenue Collector Anderson, a negro
recently appointed for the southern dis-
trict of New York, was much con-
cerned yesterday over a charge that
the illegal shipments may have been
made possible by collusion with one
or more of his deputies. He was un-
willing to believe such a charge well
founded.

By one of the revenue agents who
has charge of the secret service end
of the case, it is stated that the pre-
sent investigation involves three manu-
facturers.

Another Scandal in Washington.

Washington, July 29.—George T.
Moore, physiologist and algeonomist
of the department of agriculture today
tendered his resignation to Secretary
Wilson and it has been accepted. This
action is the culmination of a hearing
at the department yesterday at which
it was alleged by two representatives
of the agricultural publication that
Moore's wife held stock in a com-
pany manufacturing culture for soil
inoculation while Moore, who had
charge of the preparation and revision
of bulletins regarding the enrichment
of farms directed farmers to the con-
cern in question for their supplies of
the culture.

Child Is Burned to Death.

Huntsville, Ala., July 29.—The 13
months-old son of George Cantrell, of
Hazel Green, met death by burning
Thursday. The mother of the child
left her two little ones at play in her
room and went to the field where her
husband was working. Returning in a
few minutes, she found that the elder
child had struck a match and touched
it to a curtain with which the younger
boy was playing and the blaze had
incinerated the child. He was dead
before medical aid reached him.

Large Donation to Charity.

Los Angeles, Cal., July 29.—Bishop
Conaty, of this diocese of the Roman
Catholic church, confirmed today the
report that he had received the per-
sonal check of a Los Angeles mar-
for \$225,000 as a donation to the home
of the Little Sisters of the Poor, work-
on the construction of which is about
to begin. Bishop Conaty declined to
make known the name of the dona-

COTTON SEED OIL MILLS TO COMBINE

Will Control the South's Out-put of This Product.

IS CAPITALIZED FOR \$10,000,000

Organization Will Include the Southern and American Cotton Oil Companies and the Kentucky Refining Company.

Louisville, Ky., July 29.—A combina-
tion of the cotton seed oil companies
of the south is in process of consum-
mation. The combination is headed
by the Kentucky Refining company,
and includes the Southern Cotton oil
company and the American Oil com-
pany. The new company will be known
as the Kentucky Refining company.
This company filed an amendment to
its charter increasing its maximum
business from \$200,000 to \$1,000,000,
and giving it the right to hold stock
ties in other companies. Its corpor-
ate existence was also changed to 25
years. This amendment was made to
permit of the holding of the stock
of the companies it is proposed to
merge. Later the maximum busi-
ness will be raised to \$10,000,000 or
more.

According to President Ferguson of
the Kentucky company, the headquar-
ters of the company will be in Louis-
ville, and this city will continue to be
the center of the refining plants of
the company. Crude oil mills will be
conducted as now in the various large
cotton centers in the south.

The combine is an economical move,
the Southern and American being man-
ufacturers of crude oil and the Ken-
tucky being a refining company.

ELDER RAWLINGS FACES JURY.

Alf Moore, Negro Is Found Guilty of Murder.

Valdosta, Ga., July 29.—After the
conviction of Alf Moore, alleged negro
accomplice in the slaughter of the Car-
ter children, J. G. Rawlings, father of
the three boys previously convicted,
was placed on trial Thursday after-
noon.

The elder Rawlings claimed to be
ill and reclined on a couch while the
judge ordered brought into the court
room.

Effort on the part of his counsel to
have the case postponed proved un-
availing. Judge Mitchell having been
told by physicians that Rawlings was
able to stand trial.

Drs. B. S. Burton and W. E. Rouse,
who have been treating the prisoner
in the jail, were called to the stand
for the purpose of testifying to the
physical condition of the man and
both of them testified in their exami-
nations they found him suffering from
a trouble that was quite painful at
times, but that they considered him
able to stand the trial. Both physi-
cians swore that they failed to find
any disease of any vital organ and
that in their opinion he was as able
as he would be at any time to go to
trial.

The elder Rawlings appears to be
in a state bordering on nervous col-
lapse, the conviction of his sons ex-
tremely weighing heavily on him.

PLOT AGAINST SUITAN DISCOVERED.

Bucharest, Roumania, July 29.—A
plot against the life of the sultan of
Turkey has been discovered by the au-
thorities at Kuestenji. A search of
houses occupied by Turks disclosed
large quantities of revolvers, rifle
cartridges and compromising docu-
ments. The Roumanian officials sub-
sequently discovered cases of rifles
hidden in the hold of a Turkish steam-
er now at Kuestenji.

Athlete Dies of Over Indulgence.

Chicago, July 29.—A Tribune re-
patch from El Paso, Tex., says that as
a result of over-indulgence in alcohol
while a student at Columbia university
Arthur T. Kerr, 22 years old, is dead
here. In a cross-country run in Feb-
ruary, Kerr being thinly clad, con-
tracted a cold which developed into
inflammation. He was graduated from

LIBRARY CONTEST VOTE STILL LARGE

The Odd Fellows' Home Goes Back to Fourth Place.

THE \$5,000 VOTES RULED OUT

But the Home Makes Big Gains This Week—Kirby Smith Chapter Still in the Lead—Some of the Contestants Counted Out—Only Four Leaders.

The seventh week of the voting in the Library contest is ended and the only change is caused by the canceling of the \$5,000 votes of W. R. Thomas counted last week for the Odd Fellows' Home, which were not according to the agreement, as the real estate business of that gentleman was not included in the contract, and, had it been, the transaction would only have been good for 1,000 votes.

There has not been as much work done in securing votes during the past week as the week previous, yet some of the contestants have done well. The race is young yet and there may be a great transformation in the next few weeks.

Those that have below a hundred votes will not be published each issue, although the votes will be kept just the same in case a dark horse appears. Two of the voting places are not reported in the following tabulated vote:

MR. ROUX GENEROUS.

Believes in Clean Premises and Offers to Assist the Needy.

F. A. Roux is very much interested in the matter of having the citizens clean up their premises and place same in a thoroughly sanitary condition, and as evidence of his generosity and willingness to do all in his power to aid in this work, has sent the following communication to The Sun for publication:

Editor Sun: Please state to the public that owing to the conditions existing in Tampa and New Orleans, it is necessary that everyone should clean up and disinfest their premises. If there is anyone in the city who is unable to pay for such services, and they will communicate with me, I will render such services free of charge.

"Yours truly,
"F. A. Roux."

Makes the Liver Lively.

Orino Laxative Fruit Syrup gives permanent relief in cases of habitual constipation as it stimulates the liver and restores the natural action of the bowels without irritating these organs like pills or ordinary cathartics. Does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

Back From Cuba.

J. O. Andrews of this city and J. U. Decker of High Springs returned Saturday from Cuba, where they have been for the past few days. They went direct to Havana, from whence they proceeded to Camaguey, Province of Puerto Principe, which is in the heart of the most fertile section of the island. This is the farming season in Cuba, and they report magnificent crops, with every indication of a profitable yield.

The principal crop in the Province of Puerto Principe is sugar cane, where hundreds of thousands of acres are now in cultivation.

The gentlemen state that they had the pleasure of seeing M. W. Wooding, formerly of this city but now agent of the Southern Express Company in Havana, and that he and his excellent family are enjoying good health and are well pleased.

NEWS OF CITY AND COUNTY CONDENSED

George Taylor of Palmer, superintendent of the Gainesville Peach Orchard Company's immense orchards, was a business visitor to the city yesterday. He paid The Sun an agreeable call.

J. D. Barron of Millards called at The Sun office on Saturday evening on his way home from a visit with his father, who resides on the Suwannee River, and ordered The Twice-a-Week edition sent to his address.

The interior of the freight office of the Atlantic Coast Line depot has been materially improved in appearance by the liberal application of paint. The walls and ceiling are now a snow white, which affords a great deal more light.

J. A. Trimble of Archer was in the city yesterday and renewed his subscription to The Sun. Mr. Trimble does not visit Gainesville often, but when he does he always meets with a hearty welcome from his numerous friends.

G. A. Main, the efficient agent of the G. & G. railroad at Rocky Point, and one of the best all-round good fellows in this section, was in town yesterday and showed his appreciation of a good thing by paying for two years' subscription to The Daily Sun.

F. A. Roux has returned from Jacksonville, where he went on business. He states that he met a number of his erstwhile Gainesville friends who are now making their home in the metropolis but who retain the warmest feelings for Gainesville and are delighted at this city having secured the University.

Rev. Francis H. Craighill of Holy Trinity Episcopal Church favored the people of North Gainesville with a fine sermon Friday evening, preaching in North Gainesville Hall. These services, which are held weekly on Friday, are undenominational and the ministers of this city alternate in filling appointments.

Attention is called to the change of advertisement of Phifer Bros., New York Racket, which appears in the accustomed position in this issue. This firm has a few straw hats left, which they say must be sold regardless of cost. This firm is also advertising a pretty line of lounges and couches, as well as furniture.

W. N. Wilson has been drawing sketches since his recent trip to Tallahassee in the interest of Gainesville securing the University, some of which would look well in print. A sketch of our friend Frank Adams returning to Lake City with the Buckman bill under his arm, when Gainesville slips up behind him and takes out the University, is especially to the point.

Among the prominent visitors to this city is C. S. Preston, representing the Morotook Manufacturing Co., manufacturers of Working-men's clothing, Danville, Va. This company owns and operates at Danville the largest cotton mill in the world, employing several thousand hands. Mr. Preston has friends in this city, and decided to spend Sunday with them here. He is well pleased with Gainesville, which he declares is one of the prettiest little cities he has ever visited.

Hon. W. M. Blith of LaCrosse, who has been at the bedside of his son-in-law, Prof. J. J. Godwin, at Rex for the past week, passed through the city yesterday en route home. The funeral of Prof. Godwin occurred at Melrose on Friday last and was attended by a large concourse of people, all the places of business being closed out of respect to the deceased. Mr. Blith was accompanied home by his youngest daughter, Miss Alma, who has been at Seabreeze for the past two weeks.

Information has been received to the effect that Misses Charlotte and Florence Steckert, who sailed via Clyde Line from Jacksonville for New York a few days ago, arrived safely in that city Tuesday, and proceeded at once up the Hudson to Albany, where they will spend a few days. From Albany they will go to Niagara Falls, and will also visit points in Canada. These young ladies expect to be absent until early fall, and their numerous friends wish them an enjoyable outing.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W. McCollum & Co.

NOTHING NEW IN TAMPA SITUATION

Dr. Porter Wires Dr. Hodges That There Are No New Cases.

PEOPLE WORKING TOGETHER

A Thorough Cleaning Up of the City and Suburbs Being Enforced by the Health Officials and Further Trouble Not Anticipated.

There are no new developments in the yellow fever situation in Tampa, and the authorities are using every precaution in an effort to prevent a spread of the disease.

Dr. J. Harrison Hodges, agent of the State Board of Health in this city, Saturday received a telegram from State Health Officer Dr. Joseph Y. Porter as follows:

"The situation here is unchanged since my first statement, but the mosquito destruction in cordoned district in West Tampa is being pursued vigorously. No new cases. All rumors investigated. Keep your people cool."

The sanitary authorities of Tampa have commenced a rigorous campaign of cleaning up, and inaugurated Friday the war upon violators of the sanitary ordinances by serving warrants of arrest upon the owner and occupants of the Saratoga saloon and restaurant on upper Franklin street, for maintaining a nuisance in the rear of their establishment, and Chief of Sanitation H. H. Scarlett proposes to bring up with a sharp turn all who are in the least guilty of an infraction of the sanitary laws. The city authorities are joining with the State health officer in taking extraordinary precautions to prevent any spread of fever.

Dr. J. M. Grantham, the city physician, has sent a circular letter to all the physicians in the city requesting that they make a daily report of every case of any kind of fever which may occur in their practice, in order that the city health department may be in constant touch with the State health officer by informing him of every phase of sickness which may develop.

A SAD ACCIDENT.

Little Son of Rev. and Mrs. Rogers Run Over by Heavy Wagon.

A very sad accident occurred in Tallahassee Friday afternoon to Master Malbra, the six-year-old son of Rev. and Mrs. S. B. Rogers of this city, which may cost the little victim his life.

Master Malbra was out on a picnic with some of his mother's relatives, together with other children. Upon returning home in the afternoon the wagon, which was a two-horse vehicle heavily loaded, ran over a stump and the little fellow was precipitated to the ground and both front and rear wheels passed over his body about the chest.

A telegram on Saturday morning brought Mr. Rogers the sad information and he left immediately for Tallahassee. He did not know whether he would find the child living or dead.

Friends of Mr. and Mrs. Rogers extend deepest sympathy in this sad misfortune and trust that the patient will recover.

A GOOD APPOINTMENT.

Prof. J. H. Moffatt Selected Principal of Tampa School.

The following, taken from a recent issue of The Tampa Daily Herald, will be read with interest by people of this section:

"The local Board of School Trustees yesterday elected Prof. J. H. Moffatt of Meacham as principal of the Hyde Park Grammar School to succeed Professor Ellis, who has decided to enter other lines of work. The board further stipulated that Professor Moffatt shall receive a compensation of \$100 per month. Other members of the faculty have previously been appointed by the county school board. Professor Moffatt is in every way a capable successor to Professor Ellis. The new principal held a similar position last year with the Crescent City High School and is recognized through the State as one of the leading public school instructors. Mr. Moffatt is a brother of Mrs. Glen Smith of this city."

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and \$1. Sold by W. M. Johnson.

A Trip North.

As a great many of our home folks are making arrangements to visit the North, why not consult your pleasure and comfort and take a trip on the Clyde Line?

Their ships are elegant and the cost is much cheaper than by rail. You get on board at Jacksonville and go through to New York without change. "As we journey through life, Let us live by the way."

We don't know of any better way to accomplish this than by a trip to New York on one of the palace steamers of the Clyde Line.

Write to F. M. Ironmonger, Jr., Asst. Gen'l. Pass. Agt., Jacksonville, for full particulars.

CEDAR KEY PROPERTY IN A BIG MUDDLE

Proceedings to be Inaugurated
Which Will Cause Trouble.

GAINESVILLE LAWYER ACTIVE

Files Bill Asking for Removal of Cloud
of Title and Claims that Titles on All
Property of Town of Cedar Key Are
No Good.

One of the most important cases
ever filed in this State has just been
filed at Bronson, the county seat of
Levy county, which involves the ques-
tion of title of the entire town of Ce-
dar Key.

This case is in the nature of a bill
filed by Attorney W. E. Baker of this
city to remove the cloud from title and
for injunction against the Cedar Key
Town Improvement Company, repre-
sented by J. A. Williams, L. B. Par-
sons and others. Attorney Baker is
representing in the cause the heirs of
Thos. H. Parsons, being James Pierson
of Rosewood, J. T. Pierson and W. H.
Pierson of Hillsboro county.

The bill sets forth many irregularities
of the titles of the property owned in
Cedar Key. The claim is based upon a
patent granted by the United States
government as far back as 1853, to
Thos. H. Parsons, on what was known
as an armed occupation permit, which
was issued to Mr. Parsons in 1842. The
defendants, many of whom have
owned this land for several years,
claim possession by the swamp land
act of 1850, under which act the State
came into possession of all the swamp
and overflowed lands which were owned
by the United States government, and
on which no settlement had been made
prior to the passage of the act.

The patent in question covers about
164 acres, and includes the entire area
of the city of Cedar Key, improved
and unimproved.

Cedar Key is a town of nearly a
thousand inhabitants, and one of the
most important fishing points on the
Gulf Coast. Its oysters are noted the
world over for their excellent flavor,
which has brought the town into great
prominence. The fishing industry, as
well as oyster canning establishments
and other factories akin, have been
worth a great deal commercially to
the city and its people, with the result
that progress, while not brisk, has
been steady, and the people have prospered
and built for themselves nice
business houses and homes. The result
is that the Cedar Key folks have lived
comparatively unmolested by trouble
of the outside world, have built them-
selves up to comfortable livings, and
are perfectly contented among them-
selves.

But this new turn of affairs is going
to calve things in Cedar Key. It
will be like stirring up an ant's nest,
and it is no more than natural that the
people will rise as a unit in opposition
to the cause, for they feel that Cedar
Key belongs to them, especially that
portion of town which they have
bought and paid for with hard-earned
money, and which they have held un-

NATURE SPARES

The Stricken Rose From Grief.
What a fortunate provision of nature
it is, that deprives the rose of mental
suffering, for how poignant would be its
grief to discover, in the height of its
blooming glory, that a canker fed at its
heart, and that its beauty and fragrance
were doomed forever. Nature always
spares the suffering; she is a veritable
store-house of pleasing rewards, for
those who seek her aid. In the years
gone by falling hair and grayness have
cast a gloom over the lives of thousands
of young women, but thanks to the in-
vestigations of scientists the true cause
of hair destruction is now known to be
a germ or parasite that burrows into
the hair follicles. Newbro's Herpicide
absolutely destroys this germ, thus
permitting the hair to grow as nat-
ure intended. Sold by leading drug-
gists. Send 10c in stamps for sample

molested for many years. The out-
come of the case will naturally be
looked for with a great deal of interest
and anxiety.

Attorney Baker seems to be confi-
dent in the matter, and says he will
win out. He is an unusually shrewd
young man, and declares he knew what
he was about before entering the case,
as he had sifted the matter to the bot-
tom. "There is no doubt in the world
but that this property will revert back
to the heirs," he said, "because it is as
plain as the nose on a man's face that
it belongs to them under the original
grant."

Attorney Baker states that the pres-
ent suit is to remove the cloud from
the unimproved property. All prop-
erty was deeded or granted at the
same time and under the same act,
however, and it will be his purpose to
have brought cases of ejectment of
owners of improved property.

These proceedings will be watched
with interest, as the outcome means a
great deal to the people who are re-
sponsible for the making of Cedar Key.

Twenty-Three Killed in Wreck.
Liverpool, July 29.—An electric ex-
press train on the Lancashire and York-
shire railroad bound from Liverpool
to Southport, collided with an empty
stationary train at the railroad station,
causing the death of 23 persons, and
the injury of many. The first car
of the express, which was crowded,
was smashed to pieces and only six
of its occupants escaped. The road
was recently given an electric equip-
ment. This is the first serious acci-
dent that has occurred on an electric
railway in England, and it filled with
horror the numerous waiting passen-
gers standing at the Hall Road station
who were spectators of the disaster.

Cyclists Honor Atlanta Man.
New York, July 29.—The fourth an-
nual meeting of the Annual Cycle Tradi-
ng association closed its three days'
session here yesterday with the elec-
tion of officers. E. K. Lloyd, of
Pittsburg, was chosen president. The
new board of directors includes James
Fintze, Newark, O., and C. L. Elyea,
of Atlanta, Ga. A. M. Schiffy was re-
elected secretary and treasurer. The
movement to obtain the co-operation
of manufacturers and jobbers in auto-
mobile supplies, it was reported, had
received a considerable impetus.

Not in Danger of Overflow.
San Francisco, July 29.—According
to telegraphic advices received at the
office of General Manager Calvin, of
the Southern Pacific company, today
the company's tracks are in no imme-
diate danger of overflow from the high
water in the Salton sea. The water
is within 2 feet of the tracks, but
there has been no appreciable rise in
the water for several days.

French Steamer Ashore.
Guernsey, Channel Islands, July 29.
—The steamer which went ashore yester-
day on the west coast of this island,
is the French steamer Trignac from
Rosario, June 21, for Rouen. She re-
mains on the rocks in a base position.
Her cargo of corn is being jettisoned.

Postmaster Kills Mississippi.
Oxford, Miss., July 29.—E. H. Hetsy,
postmaster at Abbeville has shot and
killed B. A. Gallagher, in that village.
Hetsy claims he acted in self-defense.

A VAST STONY WRECK.

The North Cape, in Norway, is Almost
the World's End.

The North cape, Norway, is not quite
the most northerly land in Europe, but
it is far enough north, a dismal black
point jutting out into the sea nearly
a thousand feet high. Leading to the
top is a rough path not difficult to as-
cend unless it be wet and slippery.
From the top to the edge of the cliff
is a half mile or more of hard walking
over stones or through mire.

At last we come to the edge of the
cliff. The sun, though it is nearly 12
o'clock, has almost reached the lowest
edge of his daily path, but is still far
above the shimmering sea. You stand
on that lonely point feeling, except for
the presence of those around you, that
you are quite out of the world in which
you have hitherto spent your life. You
stand without on a rock pelted by ev-
ery storm of wind and snow. Attacked
by the fiery summer sun and pitiless
winter frost, no wonder that neither
tree nor shrub nor scarce a flower can
exist. Among the most solemn places
on the globe it must be reckoned the
world's end, a vast stony wreck pro-
jecting above the wide waste of wa-
ters.—Albert L. Bolls in Booklovers
Magazine.

Feel Impending Doom.

The feeling of impending doom in
the minds of many victims of Bright's
disease and diabetes has been changed
to thankfulness by the benefit derived
from taking Foley's Kidney Cure. It
will cure incipient Bright's disease
and diabetes and even in the worst
cases gives comfort and relief. Slight
disorders are cured in a few days. "I
had diabetes in its worst form," writes
Marion Lee of Dunreath, Ind. "I tried
eight physicians without relief. Only
three bottles of Foley's Kidney Cure
made me a well man." J. W. McCollum

Customs Red Tape.

Several tins of paint were found
among the luggage of an Englishman
who was travelling to Monaco. He
was in charge of a racing craft and
intended to use the pigment to touch
up the vessel after its long railway
journey. The French customs officials,
however, took exception to the paint on
the ground that it contained diabolic
spirit, whereupon the traveler argued
that he intended bringing it back on
leaving the country. Asked how he
was going to bring it back, he replied,
"On the sides of the boat." Even this
plea did not suffice, the authorities ar-
guing that the spirit would have evapo-
rated.

The Great Assam Earthquake.

After the great Assam earthquake
which occurred on June 12, 1897, the
earth tremor went on continuously for
several days. It was estimated that
there were 200 shocks a day for a few
days after June 12, and, though these
had diminished to twenty or thirty a
day by the middle of July, the people
were accustomed for at least two years
after the earthquake to a daily shock.
These after shocks were the residual
effects of the first big disturbance and
had nothing dangerous in their charac-
ter.

Bent Her Double.

"I knew no one, for four weeks, when
I was sick with typhoid and kidney
trouble," writes Mrs. Annie Hunter of
Pittsburg, Pa., "and when I got better,
although I had one of the best doctors
I could get, I was bent double, and had
to rest my hands on my knees when I
walked. From this terrible affliction I
was rescued by Electric Bitters, which
restored my health and strength, and
now I can walk as straight as ever.
They are simply wonderful." Guar-
anteed to cure stomach, liver and kidney
disorders; at all drug stores; price 50c.

A GREAT EDUCATIONAL MOVEMENT!

**A Magnificent Library Worth \$500
Offered Free of Cost!**

Unprecedented Offer that Promises to Prove
Unusually Interesting.

Something SUN Readers Shoud Consider

Read the Following Details Carefully:

The Mystery Surrounding the Beautiful Display in G.
W. HYDE'S Window Revealed in the following:

A number of our enterprising mer-
chants have arranged what will prove
to be a most interesting contest be-
tween the High School, Twentieth
Century Club, Odd Fellows' Home, B.
P. O. Elks, Volunteer Firemen, Ma-
sons, W. O. W., K. of P., Gainesville
Guards, Kirby Smith Chapter of J. J.
Finley Chapter of the U. D. C., or any
church, Sunday school, hospital orga-
nization or institution you would wish
to own the beautiful library valued at
\$500, now on display at G. W. Hyde's.

THE REWARD will be a magnifi-
cent library, consisting of 200 volumes
of the standard subscription publica-
tions of the day as follows: The
Great Chas. Dudley Warner "Library
of the World's Best Literature," 46
volumes; "Library of the World's
Greatest Classics," 30 volumes; the
Anglo-American Dictionary and Cy-
clopedia, 12 volumes; Library of Or-
atory, by Denew, 15 volumes; Works
of Balzac, 36 volumes; the Li-
brary of Poets, 32 volumes; the
World's Best Essays, 10 volumes; His-
tory of Our Great Commanders, 12
volumes.

Each and every one of these books
are specimens of the best mechanical

execution, which examination will
prove.

The conditions of the contest are as
follows: Any lodge, church or school,
club, hospital or organization, public
or private, is eligible to the contest.
Votes for individuals will not be count-
ed. With each 10 cents purchase a
ticket will be given by the merchants
through whose liberality these grand
libraries are furnished, on which will
be written the amount of the purchase
and the number of votes. The pur-
chaser will write on the ticket the in-
stitution or organization for which he
or she desires to vote, sign their names
and deposit the ticket in the ballot
box in the store in which the purchase
is made.

The standing of the contestants will
be published exclusively in each Sun-
day's issue of The Sun until October
14th, 1905, at 7 o'clock p. m., when the
remaining votes will be counted, and
the magnificent library awarded to the
organization having the largest num-
ber of votes. The Sun will publish in
each issue a coupon which will entitle
the holder to two votes that will be
credited to the institution that is writ-
ten on space provided for same when
delivered to the ballot boxes in either
of the stores.

Voting Tickets Can be Secured From the Following Merchants:

Our Meats and Vegetables are the
best the market affords. Vote here.

Gainesville Steam Laundry.

Give us your work; save the bundle
slips. Get your friends to do likewise.
Take them to our agency and get the
votes. Big item.

A. M. Cushman.

Votes will be issued for premiums on
new policies written or old policies re-
newed, provided such premiums are
paid within thirty days of date of pol-
icy. For each 10 cents of premium
vote will be issued.

Mrs. S. W. LeGrande.

The only Millinery and Notion store
issuing votes. Vote here.

Merchants, Note Carefully.

The rules of the contest provide that each merchant shall carefully make
a record of his vote on Friday night of each week, sending a duplicate of same
to The Daily Sun, on Saturday before noon of each week, over his own signa-
ture, including the tickets, carefully wrapping and tying them up in as small
package as possible; write your own name and date of delivery on each so that
they can be filed away with your records and delivered to a committee of
awards appointed at the close of the contest.

THE SUN'S Voting Proposition.

Under no circumstances will an employe of this paper be allowed to cast
vote in this contest.

We will give a premium of 75 votes for every paid three months' subscrip-
tion to this paper; 200 votes for every paid six months' subscription and 500
votes for every paid subscription for one year. Old subscribers get the same
number of votes by paying their subscriptions in advance. Every voter should
be a subscriber. To the institution securing the largest number of votes in
this manner, we will award at 7 o'clock p. m., October 14th, 1905, 10,000 votes.

LIBRARY VOTING COUPON.

This coupon entitles the holder to two votes that can be cast for
any institution competing for the beautiful library, when properly
filled out, signed and returned to the ballot boxes in either the above
stores.

What a blessing it must be to some of these grafters to not have any conscience to trouble them.

Senator Depew don't mind facing the music, only he don't care to have the band play the "Dead March."

The people must be getting very, very tired of seeing that Equitable foolishness in the papers. They certainly don't read it.

Another one of the Patterson family will soon be looking around to find out who struck him. It is the Democratic nominee for Governor of Ohio.

Secretary of Agriculture Wilson, who is reported sick, will have the sympathy of the people of the country. The gang he has had to contend with would nauseate a wooden Indian.

Governor LaFollette of Wisconsin begins to think he would rather hold that job than have a seat in the Senate. In other words, he would rather be a King among pigmies than a pigmy among kings.

The State Board of Pardons is coming in for a good share of censure for the free use of their power on men who are not deserving of clemency. The murderer is set free, while those who commit slight offenses are sentenced to the full extent of the law.

Russia reminds one of some of the insolent fellows who have frequently been saved from a severe drubbing by the interference of friends, who will still use abusive language just as long as they know they can't get near enough to give her a "daud on the neb."

The expenditures of the government are now piling up so fast that a war tax is the only way out of the difficulty. Big navies come high, but we must have them to watch our possessions. If we would only have a sale of our Pacific possessions and get out even, we would be ahead in a few years.

The Sumter County Times made its appearance last week in a new dress, printed on a new Potter press. It is filled with county correspondence and local news—just what a country paper needs to make it a popular success, and the people of Sumterville and the county it so ably represents will not be slow to recognize its worth.

Wade Wynn, a well-known citizen of Clarke, has been adjudged insane and sent to the asylum at Chattahoochee. His condition is said to be due to his efforts to solve the many guessing contests that are appearing in the papers and magazines of the day. He would spend a greater portion of the night in trying to solve these problems.

Judge Gordon of Tampa has made a name for himself in the Park-Bomford trial and the press and public of the State are loud in their praises of his noble words addressed to the jury and the people. We want more of such men in public places—men who have a profound respect for the sanctity of the law—but the good Lord deliver us from such juries.

WORTHY OF COMMENDATION.

The thorough work of the State Board of Health is worthy the admiration of the entire people of Florida. Dr. J. Y. Porter, State Health Officer, has been most thorough in his work, and we feel as though the safety of the people could not be placed in better hands. Regarding the Tampa case Dr. Porter has the following over his own signature:

"No quarantine will be placed against Tampa, nor is there any necessity for such action, but the square, with inmates, in which the man is sick will be quarantined, and every person occupying the same will be daily seen and kept under close observation. There is no need for scare or alarm on the part of the people of Tampa or of the State. While it is wished that case had sooner come under control of the health authorities and the previous whereabouts of the man, which should have been considered suspicious by any carefully thinking person, had been promptly reported, yet the State health authorities hope to destroy mosquitoes which may have bitten this man before the period in which the infection is known to develop and be capable of infecting the human. This period, it has been demonstrated, is twelve days from the incipient biting of the yellow fever patient."

"It will be noted that this man reached Tampa before yellow fever was known to exist in New Orleans by those without that city, although it is now learned that persons of the Italian colony in Tampa knew from New Orleans friends that a suspicious fever existed in New Orleans some three weeks ago."

CABINET OFFICERS' SALARIES.

A Washington correspondent announces that an effort is to be made in the next Congress to increase the salaries of the cabinet officers. The complaint is made that the secretaries cannot live in the style they should on the money they now receive. Well, says The Commoner, that is a matter of opinion. If your country is going to ape the monarchies of the old world and attempt to awe the masses with gorgeous social display, then it will be necessary to raise salaries all around. But if government officials are willing to observe the simplicity that befits a republic the salaries are sufficient. The congressmen and senators who live within their salaries are the best officials in those bodies and it would not be difficult to find competent cabinet officers who could live on cabinet salaries.

Instead of trying to imitate the extravagance of European officialdom it would be refreshing to see our country set an example in the careful use of public money. Every increase in official salaries tends to lessen the number from which selection can be made. There is a growing tendency to measure men by their incomes—those who give all their time to money making being ranked higher than those who give part of their time to the public. If an increase in official salaries is made it will be followed by a demand for more higher priced corporation attorneys in the public service—and we have enough now.

The offices ought not to be taken out of reach of those who prefer to be known because of their contribution to the world rather than because of the money they have collected from society. The government needs public-spirited, patriotic officials, not men whose souls are bent on getting rich.

China wants to be in the peace conference, not because she cares so much about "butting in," but to be there to sign the deed in case she is sold out.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHERRY & Co., Props., Toledo, Ohio.

Sold by druggists, price 75c. Take Hall's Family Pills for constipation.

CUT IT OUT.

It should be noted that many newspaper writers in Florida and other Southern States have formed the habit, when writing of some contemptible criminal and his misdeeds, of mentioning that he comes of a good family, or that he is well connected, as though it were a pertinent fact in the case. The history of America shows clearly that birth has little or no connection with moral worth. What pride of ancestry had Webster, Clay, Jackson, Lincoln or thousands of other worthy American citizens? Let's cut that feature of the description out as of no consequence. Every man is just what he is himself, without regard to what his father was.—Pensacola Daily News.

If such men were tried on their merits, without regard to ancestry, and let their past records count, there would be more help on hand to gather the turpentine product.

This is the day when our people lay aside worldly cares and return thanks for the good that has been bestowed upon our State and nation. There is no denying the fact that the people of this country have been abundantly prospered so far this season, and we should be thankful that we have peace and plenty. The crops of the land are ample and there has been everything to denote prosperity to our land. Florida has no cause to complain, and the progress she is making is indeed very satisfactory.

Thomas C. Platt is expressing a desire to reform. Roscoe Conkling's ghost perhaps has appeared to him.

Seek to Annul Club's Charter.

Jefferson City, Mo., July 29.—Quo warranto proceedings prepared by Attorney General Hadley were filed in the supreme court today seeking to annul the charter of the Delmar Jockey club, and to confiscate the property for the use of the state. Judge Marshall, of the supreme court, issued an order directing the respondent to appear before the supreme court on Oct. 10, to show cause why the charter should not be annulled and the property forfeited to the state.

HERBINE

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

THE VALUE OF OKRA

AN IMPORTANT FOOD PLANT THAT IS MUCH NEGLECTED.

The Nutritive Properties Are Very High and It Is Particularly Beneficial in Cases of Chronic Indigestion—Some Simple Recipes.

Okra is a very important and useful plant, with numerous uses, the most important being for the table. The green pods without doubt make the best soup vegetable supplied by the garden. Cooked whole they also furnish a palatable side dish. The nutritive properties of okra are very high, and it has the additional advantage of being an exceedingly wholesome article of food. It is erroneously called gumbo in many cook books and even in some encyclopedias. The name of the plant and its fruit is okra. Gumbo is a general term for various kinds of soup made of it. Okra, in fact, is an excellent food much neglected.

A very important consideration from the alimentary point of view is the unusually high percentage of digestible matter. That fact had been established by common experience long before any analysis of the pod had been thought of, for wherever the vegetable is in use it is well known that the soup is highly beneficial to persons with weak stomachs. Often it will be retained when nothing else can be taken, and it has in many cases restored tone to digestive organs that seemed hopelessly disordered. It is a particularly beneficial food in cases of dyspepsia and chronic indigestion.

The dried seeds, parched and ground, are said to make an acceptable substitute for coffee. A substitute for arrowroot can be made from the roots. The leaves, green or dry, are used, decocted, for their demulcent properties. The inner bark, soft and white, contains a strong fiber resembling flax. The outer bark is also fibrous and, together with the woody part of the plant, furnishes excellent paper stock. As okra is easily raised, it can be cultivated with profit.

For table use the pods must be cut while tender, generally when about three inches long. They grow rapidly and soon become woody. The plant is very prolific, and it will continue to bear until touched by frost. A small patch will more than meet the requirements of an ordinary family, and the surplus may be preserved for winter use by two convenient methods. The easier is by drying. Slice the pod, crossways, into sections a quarter of an inch thick, spread this on large dishes or trays and expose to the sun from day to day until thoroughly dried. Put in jars or close cans and keep free from moisture. The other method of preservation is by canning, which will be explained later on. The plant is foliaceous and ornamental enough for the flower garden. The leaves are large and palmatisect, and the blossoms, which in form resemble those of the hollyhock, are at first a brilliant gold, with a purple disk. After the first day the gold also takes a purplish hue.

Here are some of the best recipes for cooking okra: Okra soup—Take a piece of beef or a marrow bone, put on in cold water and boil until cooked. Slice one quart of okra pods crossways into thin sections and add, with enough strained ripe tomatoes to give the soup a rich color. Continue to boil until the okra is thoroughly cooked, which will take about fifteen minutes. A green pepper, from which the seeds have been removed, sliced and added, will improve the flavor. The various gumbos, chicken, fish or crab, are made in the same manner.

An excellent soup can be made without meat by boiling the okra, sliced as above, and adding when cooked a good sized piece of butter. Other vegetables, such as carrots, onions, and celery, may also be used, but lovers of okra prefer it straight. Soup made as above will keep in a cool place for several days and improve with age.

A savory dish for lunch or dinner is made in the following manner: Butter a pudding dish, put in a layer of cooked or half cooked rice, a layer of sliced okra, a layer of ripe sliced tomatoes, butter, pepper, salt and a little sugar if the acid of the tomatoes be objectionable; repeat the layers, until the dish is filled; grate breadcrumbs on top, with pieces of butter; pour in as much boiling water as the dish will hold; bake long enough to cook; serve hot.

Okra also makes a palatable vegetable dish, but in this form it is not always acceptable on first acquaintance. Its substance is viscous, and for that reason probably does not at once captivate the taste. Put the pods, whole, into boiling water, with salt; boil about fifteen minutes or until cooked; pour off the water, place in a hot dish, add pepper and plenty of good butter; serve hot. Cooked in this way, treated with good vinegar and served cold, it makes a good salad.

Any housewife can do her own canning of okra. Slice and boil the okra until two-thirds cooked; put in a hot jar, fill full, seal tight and place in a dark cool place.

tomatoes and boil until the okra is thoroughly cooked, but be careful in either case to omit salt; put up in jars as above. By following this method okra soup may be had throughout the winter.

In the south the taste for okra is universal, possibly an inheritance. Elsewhere it may, like that for the olive, have to be cultivated. But the taste does not require much cultivation, and, once acquired, it is a permanent possession.—New York Herald.

A Scotch Collie Story.

A story of a Scotch collie is current on the Derbyshire border, according to the Dundee Advertiser. A farmer in the Peak district, having purchased a small flock of sheep in the lowlands, drove the flock the whole way from Scotland to his farm in Derbyshire with the aid of a collie dog which was lent to him by the Scotch farmer from whom he purchased the sheep. "When you get to your home with the sheep," said the Scotchman, "let the dog fill his belly; then tell him to go home." The Derbyshire man duly arrived at his farm with the sheep and was so pleased with the collie dog and its performance that he decided to keep it a few days before sending it back. One day he was away from home during the whole of the day, and on returning in the evening he found that the Scotch collie was missing and also the flock of sheep. In a few days tidings came that the dog had arrived at his Scotch home and had brought the sheep back with him.

Breaking It Gently.

He is a rather serious minded boy who has more sense of responsibility than many grown persons. So when he was sent to his grandmother's to break the news of her aged sister's death he did so with much gravity and no little self importance.

"Now, Alfred," his mother said, "you mustn't tell grandma suddenly, because it might shock her, even though she knew Aunt Martha was ill. Tell it to her gently."

"All right," assented Alfred, starting out on his mission with mingled solemnity and eagerness.

Arrived at his grandmother's house, he greeted her with a sober "Hello!" and then proceeded to "break the news" by saying:

"Aunt Maria's dead, grandma, but you mustn't feel bad, 'cause she was pretty old, anyhow. You'll be the next one, I s'pose."—Brooklyn Life.

Not More Curiosity.

The world has a store of pleasures in waiting for the unaccustomed traveler. Sometimes, indeed, they may be mostly in anticipation, as was the case with Amos Riggs of Plumtown.

"How d'ye do?" said Mr. Riggs cordially to the stern visaged man who was his sent mate in the car on the occasion of Mr. Riggs' first trip to Boston. "Now what might your name be? Do you live in Nahany or beyond?"

"I should like to know what business it is of yours where I live or who I am?" said his companion crossly.

"Well, now, it ain't any particular business o' mine, strictly speaking," said Mr. Riggs mildly, "but it's jest like this: I've got a cousin up in Canada that I've never seen, and I've always thought I might come upon him some time jest by asking folks their name and so on."

Tides and Storms.

When a tempest is approaching or passing out on the ocean, the tides are noticeably higher than usual, as if the water had been driven in a vast wave before the storm. The influence extends to a great distance from the cyclonic storm center, so that the possibility exists of foretelling the approach of a dangerous hurricane by means of indications furnished by tide gauges situated far away from the place then occupied by the whirling winds. The fact that the tidal wave outstrips the advancing storm shows how extremely sensitive the surface of the sea is to the changes of pressure brought to bear upon it by the never resting atmosphere.

Green.

Owing to its derivation the word "green" was originally applied to the color of vegetation, but not to the color of the sea. No application of "green" to the color of the sea is quoted before Chaucer, but as early as the year 700 it was used for vegetation. The word is akin to "grass" and "grow," which verb originally belonged to the vegetable world alone. Vegetables "grew," but animals "waxed." "Green" comes from an Aryan root, "ghra," meaning to be green or yellow, and "yellow," "gold" and "yolk" come from that same root.

Taploca and Pearl Taploca.

Taploca is manufactured from the plant called in Brazil manioc, in Peru yuca and in the West Indies cassava. When the true starch is separated from the root it is placed on hot plates and while it is heating is stirred with an iron rod. The starch grains burst, and the whole aggregates into small, irregular masses. Pearl taploca is not a product of the plant at all, but of the starch.

A LIVING NET.

Peculiar Method of Fishing Used by Natives of Oceania.

A peculiar method of fishing is indulged in by the natives of Tetiula, one of the islands of Oceania. At a given signal the inhabitants of the village assemble on the seashore to the number of about 200 persons, each of whom carries a branch of cocoa palm. With these in their hands they plunge into the water, and at a certain distance from the shore turn toward it, forming a compact half circle, each one holding his palm branch perpendicularly in the water, and thus forming a sieve.

The leader of the party then gives a signal, and this living net approaches the shore gradually in perfect order, driving before it a multitude of fishes. Surrounded by this living wall and entangled in the cocoa palm branches many of the fishes are cast on the sand by the waves, while others are killed with sticks. After being cooked over hot coals the fish are served with bananas and cocoanut milk.

The scene as described by a Frenchman who visited the island was interesting and picturesque in the extreme, the effect being immensely heightened by the appearance of the natives, whose costume consists of a short tunic of seaweed or leaves. Their hair is powdered with chalk, while the warriors are distinguished by their hair being powdered red. Wreaths of gardenias or red hibiscus are worn on their heads, also round their necks.

AN EXPERT ON LYING.

He Was Allowed to Testify in Court and Won the Case.

A Kansas City lawyer tells of the use of expert testimony on lying. He says:

"I was prosecuting attorney for Finney county in 1881, and had a fellow up before Squire N. C. Jones on the charge of horse stealing. He hired Mike Sutton to defend him, and when the case was called I proved beyond question by a witness who witnessed the theft that we had the right man. After the prosecution had rested Sutton introduced 'Buffalo' Jones as a witness and gravely informed the court that he intended to prove by him that my witness had lied. 'Buffalo' took the stand and swore that, while he had never seen or heard of the witness before and knew nothing at all about the crime committed, he had had a great deal of experience with men and could tell pretty certain when they were lying. Then he proceeded to tell how men acted when they were lying, and gave the expert opinion that my witness had sworn to lie from the word go. I protested against such performances, but Sutton made the judge believe he had as much right to introduce an expert on liars as he would have to introduce an expert on medicine or any other science, and the result was the thief was dismissed from custody."

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Boesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

American, All Right.

A countryman registered at a hotel in Kansas City the other day. He did not explain on what "plan" he purposed to become a guest.

"European or American?" asked the clerk.

The guest looked surprised. "American," he said emphatically. "Born and raised up here in Platte county. I don't look like no foreigner, do I?"

A Different Meaning.

GENERAL NEWS.

GENERAL APPROPRIATION BILL.

Reported to the House—Other Important Measure Before Session.

Atlanta, July 29.—The general appropriations bill for 1906 and 1907, which was reported back to the house by chairman Davis Thursday in record-breaking time, carries a total of \$1,065,618.14 for each of those years. This amount covers the total annual expenses of the state.

The general appropriations bill, under the rules of the house, has the right of way over everything. It was made the special order for Monday, July 31, and will be constantly before the house until completed.

While increases were made in certain appropriations aggregating \$365,000, other items were cut out by the committee and one or two items were added, so that it is stated, the bill does not carry more than a few thousand dollars increase over the total for 1905. For instance, the \$25,000 given for a building at the state normal school in 1906, does not appear in the bill. The \$5,000 given to the water commission was cut out, because the commission has enough left to operate on.

An interesting debate is promised in the house on Wednesday next, Aug. 2, when the child labor bill, by Mr. Bell of Fulton, will come up as the special order immediately after the reading of the journal. This bill comes back from the committee on labor and labor statistics with a favorable report by a vote of 17 to 6, and it is said to have a strong following in the house. The debate has been limited to one hour on each side, so that it is likely a vote on the bill will be reached on the day of consideration.

In the Senate.

Only the per diem and the actual expenses of senators on the various visiting committees will be paid this year, and then only after an itemized statement of such expenses has been submitted to and approved by the auditing committee.

This was determined upon definitely and positively by the senate Thursday when Senator Copeland's resolution relative to the visiting committees was unanimously passed by the senate.

It is now up to the senate to say whether Georgia shall have a state reformatory for the care, education and reformation of youthful criminals. The house passed the Felder reformatory bill Thursday, after a three days' debate, by the unusually large vote of 122 to 25. The big vote for the bill was really a surprise to the most ardent advocates of the measure.

REMEDY FOR TEXAS CATTLE TICK

Method Discovered to Help Southern Cattle Raisers' Business.

Knoxville, Tenn., July 29.—A director of the government agricultural experiment station in this city has devised what is said to be an entirely practicable method of ridding a farm of the Texas fever cattle tick.

The method is exceedingly simple and inexpensive, and it is said can be practiced upon practically any farm in the south. The Texas fever having been the bane of the cattle industry in the south, the discovery is regarded as being invaluable to farmers and cattle raisers of the south. He has been enabled to work out this method by a careful study of the habits, life and history of the tick which conveys the disease from one animal to another. The details of the method are given in official bulletins on the Texas fever cattle tick, just issued by experiment stations in this city and Baton Rouge, La.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Both, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

Special Term to Try Murderer.

Pensacola, Fla., July 29.—A telegram was received here from Judge Francis B. Carter, at Marianna, ordering a special term of the circuit court for the purpose of trying William F. Williams, the young man who is held on the charge of murdering John White and Edward C. Danby, ten days since. Numerous petitions and items were sent S. G. Carter, who was recently appointed judge of this circuit in which he was asked to give Williams a speedy trial and thus allay feeling that might exist. Attorneys have been employed by the defendant and it is probable that they will ask for a change of venue. The special term is to convene Aug. 9th.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." Unequaled quick cure for throat and lung troubles. At all drug stores; price 50c and \$1, guaranteed. Trial bottle free.

Doubts as to a New Treaty.

Washington, July 29.—Some doubt expressed in official circles whether it will be possible to obtain China's consent to another treaty with the United States providing either for the exclusion of the Chinese laborers from this country. The state department is aware of illfeeling throughout China on the whole subject and now that the immigration treaty with China has been allowed to lapse without negotiation of a new agreement, reports have reached here that China is inclined hereafter to refuse to sign any similar convention.

Scientific Photographer Dead.

Philadelphia, July 29.—John C. Carbutt, known to photographers the world over, is dead at his home in this city, aged 73 years. He had been a sufferer from Bright's disease for more than a year. Mr. Carbutt came to this city from Sheffield, England, in 1853. He was a skilled chemist, and made scientific photography a life study. The Photographers' Association of America chose him as their first president.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and \$1. Sold by W. H. Johnson.

Forty-two Arrested for Riot. Chicago, July 29.—The arrest of 42 persons last night ended a riot which began with an attack on two nonunion teamsters at Halstead and Van Buren streets. More than 500 men and women were involved. James Simpson and Oscar Berger, nonunion teamsters, who had resigned their positions were recognized by union men. They were attacked, and as the crowd increased, the police were notified. Lieutenant O'Connor and a patrol wagon loaded with patrolmen soon arrived and the disturbance continued. Attempts to disperse the crowd were unavailing, and the lieutenant ordered the patrolmen to arrest all who refused to go away.

To Return to Original Principles. Salt Lake, Utah, July 29.—Frederick W. Smith, grandson of the prophet, Joseph Smith, and the son of Joseph Smith, the present head of the reorganized Church of Latter Day Saints, has started a new propaganda to convert the Mormons of Utah to the former principles of the church as stated by the prophet. As the initial step in his campaign Mr. Smith has issued an open letter to the Mormons of Utah, appealing to them to abandon polygamy, commercial and political interference. Authorities are quoted to prove that Brigham Young led the people away from the teachings of the prophet.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.
